MICHAEL NTIA MICHAEL

WEB DEVELOPER | SOFTWARE ENGINEERING TRAINEE | DIGITAL SOLUTIONS SPECIALIST

Nigeria • +234 703 529 0614 michaelwealthdev@gmail.com linkedin.com/in/maicodon

PROFESSIONAL SUMMARY

Entrepreneurial digital professional transitioning into a focused web development and software engineering career, with experience spanning digital services, branding, content development, Web3 products, community engagement and digital skills training. Building practical development capability with HTML, CSS, JavaScript, React, Next.js, Node.js, PHP and MySQL, including hands-on work on task-management and student-management/portal applications. Brings strong business understanding, communication, problem-solving and project ownership to building practical digital solutions.

WEB DEVELOPMENT & TECHNICAL COMPETENCIES

Front-end development: HTML5, CSS3, JavaScript, Next.js, React fundamentals; responsive layouts, page structure, styling and interactive interfaces.

Back-end & databases: Node.js, PHP and MySQL fundamentals; server-side application structure, database connectivity and CRUD workflows.

Development workflow: Git/GitHub, VS Code, XAMPP and local development/testing.

Software engineering: Application architecture, authentication, role-based access control, validation, maintainable code and secure development practices.

Digital product capability: Translating business needs into functional requirements, user-focused content, interface planning, troubleshooting and iterative improvement.

SELECTED DEVELOPMENT PROJECT

Dakkada Skills Acquisition Centre - Student Management & Portal System | *Independent Project | In Progress*

- Developing a web-based portal concept to support student records, role-based access and academic administration for a skills acquisition centre.
- Working with PHP, MySQL, HTML, CSS and JavaScript in a local XAMPP development environment.
- Designing workflows for student and staff accounts, dashboards, attendance, results, course-change requests and certificate-clearance processes.
- Applying practical software development principles while building and testing authentication, database and application features.

PROFESSIONAL EXPERIENCE

Milestone Media | Owner & Operator | ***2012–Present***

- Lead business strategy, operations, marketing, customer relationships and service delivery for a creative and digital services business.
- Develop branding strategies and deliver design and printing projects from concept through production.
- Implemented marketing initiatives associated with a 38% increase in business revenue.
- Maintained a reported 95% customer retention rate through service quality and client relationship management.
- Translate client requirements into practical solutions and manage projects from brief through delivery.
